

REMS REG 10-42

Outer-inner pipe deburrer

Robust, solid all-metal tool for outer-inner pipe and tube deburring. For manual or electric operation.

Stainless steel pipes, other steel pipes, copper, brass, aluminium, plastic pipes

Ø 10-42 mm
Ø ½-1 5/8"

REMS REG 10-42 – by hand or electric. Specially for stainless steel pipes.

Ideal for pipes of all types. Specially for stainless steel tubes of pressfitting systems.

Easy and fast deburring through an appropriate, solid all-metal tool, equipped with 4 specially hardened and ground deburring blades.

Adapter for use with electric screw driver with chuck (speed ≤ 300 1/min) as accessory.

German Quality Product

Supply format

REMS REG 10-42. Outer-inner pipe and tube deburrer for manual or electric operation. For stainless steel pipes, other steel pipes, copper, brass, aluminium, plastic pipes, Ø 10-42 mm, Ø ½-1 5/8". Without adapter for electric drive. In cardboard box.
